REPORT FROM THE DIRECTOR'S DESK

The Annual Report of the Zoological Garden, Alipore, Kolkata for the year 2019-2020 is published with a hope of sustainable development. This Zoo has achieved tremendous successes on captive breeding of all three types of Pythons available in India, viz. Reticulated Python, Burmese Python and Indian Rock Python, Asiatic Lion, Marsh Crocodile, different types of deer etc. during the year and also have achieved success in breeding the 'State Animal of West Bengal', Fishing Cat as well as Mousedeer. Many of these animals belong to Schedule-I under Wildlife (Protection) Act, 1972.

Constant sincere effort was made to maintain the animal health in the Zoo. Besides a Zoo Biologist, a Research Assistant, Zoo Educator and an Education Assistant were appointed during this financial year to monitor the records, enclosure enrichment, and behavioral data of the inmates etc. and fulfill educational objectives of the Zoo respectively.

Fascinating greenery, gardening and landscaping added attraction to the visitors of the Zoo and because of these, annual footfall during this financial year was around 30 lakhs.

The Annual Report for the year 2019-2020 of Zoological Garden, Alipore provides all zoo enthusiasts and others information about various aspects of management as well as developmental activities undertaken in the Zoo. I am optimistic that Zoological Garden, Alipore will continue to develop and grow as one of the best managed Zoos of the country.

I extend my sincere thanks to Sri B. P. Gopalika, IAS, Addl. Chief Secretary, Department of Forests, Government of West Bengal, Sri R.K.Sinha, IFS, Principal Chief Conservator of Forests HoFF and Principal Chief Conservator of Forests, Wildlife and Chief Wildlife Warden, Government of West Bengal, Sri V.K. Yadav, IFS, Addl. Principal Chief Conservator of Forests and Member Secretary, West Bengal Zoo Authority and also all senior officers of Department of Forests, Government of West Bengal and Central Zoo Authority for their support and co-operation in successfully managing the Zoological Garden, Alipore in a best possible manner under the given situation. I also extend my thanks to all the officers and staffs of the Zoological Garden, Alipore for their immense support in managing zoo in best possible manner.

A handwritten signature in black ink, appearing to read 'Sandeep', written over a background of green water ripples.

Director
Zoological Garden, Alipore

HISTORY OF THE ZOO

Since establishment of the Zoological Garden, Alipore on 24th September, 1875, the Zoo has passed through several phases. Initially, the citizens of Kolkata at that time came forward with generosity in the process of establishing the Zoo with financial help and they also donated animals from their collections to the Zoo.

Then land development started and some animal houses were constructed to house the animals. "Mullick House" was the first animal house constructed within the Zoo with the financial help of Raja Rajendra Mullick Bahadur, the first Indian donor.

Fowls and pheasants were kept in the Mullick House and they started to breed as early as in February, 1876. Followed by Mullick House, Burdwan House, presently known as open air moated enclosure for lions, was constructed at a cost of Rs.35,000/-, the entire amount of which was donated by the Maharaja of Burdwan. Gradually other animal houses / enclosures came into being and named after their donors.

The park was initially run by an honorary managing committee which included Schwendler and the famous botanist George King. The first Indian superintendent of the zoo was Sri Ram Brahma Sanyal, who did much to improve the standing of the Alipore Zoo and achieved good captive breeding success in an era when such initiatives were rarely heard of. One such success story of the zoo was a live birth of the rare Sumatran Rhinoceros in 1889. The next pregnancy in captivity occurred at the Cincinnati Zoo in 1997, but ended with a miscarriage. Cincinnati Zoo finally recorded a live birth in 2001. Alipore Zoo was a pioneer among zoos in the 19th century and

the early part of the 20th century under Sanyal, who published the first handbook on captive animal keeping. The zoo had an unusually high scientific standard for its time, and the record of the Cladotaenia genus (Cohn, 1901) of parasites is based upon cestodes (flatworm) found in an Australian bird that died at the zoo.

After the establishment of Central Zoo Authority in India in the year 1992, open air moated enclosures for primates, white tiger, Indian elephants, Asiatic lions and mugger, gharial & salt water crocodile were constructed with the financial help of Central Zoo Authority. During this period, remodeling of open air moated enclosure for hippopotamus was also carried out with the financial assistance of Government of West Bengal.

Since shifting of management of the Zoological Garden, Alipore from the Management Committee to the West Bengal Zoo Authority in the month of August, 2009, several developmental activities started at the Zoo and because of those activities face changed enormously. Several outlived animal house like "Echidna House", "Balaram House", "Kiosk House", "Jungle Fowl Enclosure", "Cat Cage", "Leanto Shed" etc. were demolished and many developmental activities were carried from August, 2009 to March, 2020.

VISION

To provide future direction for modernization & upgradation of the Zoological Garden, Alipore to such extent that in spite of being one of the oldest Zoos of India, it can be at par with one of the best Zoos of the country. For that purpose the available resources, planned breeding, research etc. would be the essential tools keeping in mind the constraints, limitations and inherent challenges of an old Zoo.

MISSION

The mission of the Zoological Garden, Alipore is “Conservation of wild animals from India and abroad with special reference to the wetland fauna and education & research for sustainable conservation of wild fauna which are under severe threat due to biotic interference”.

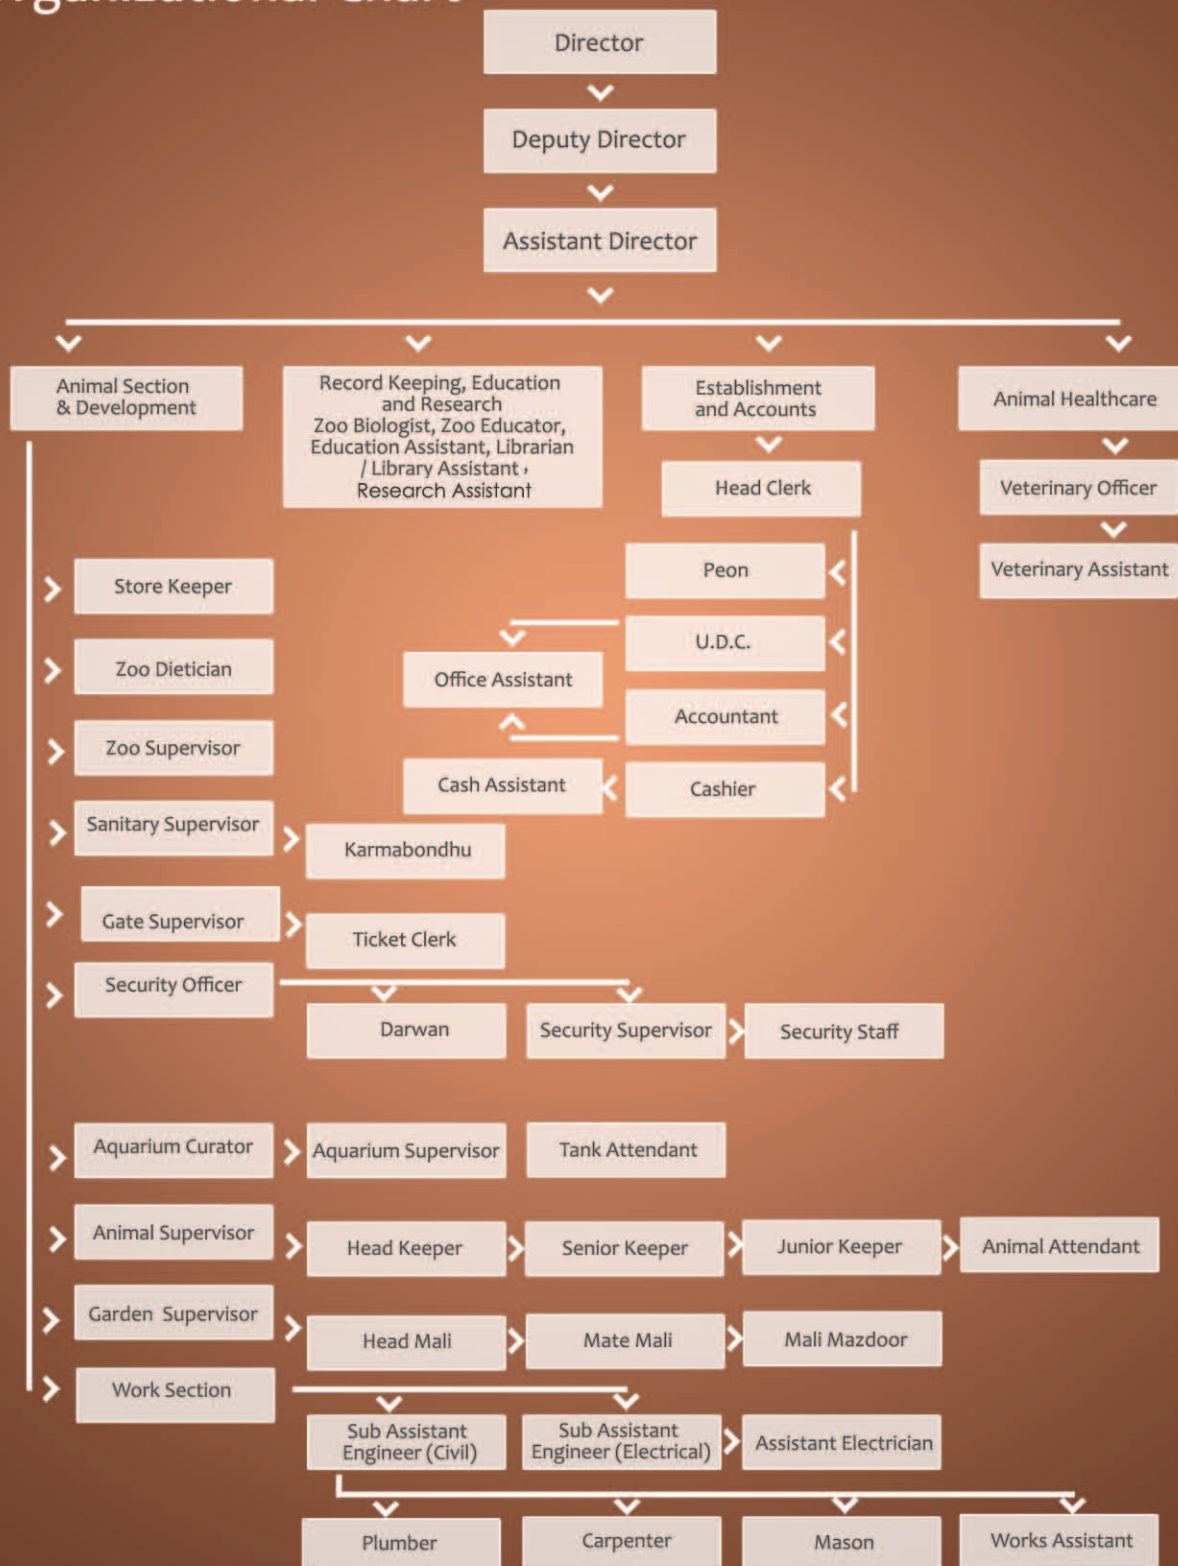

OBJECTIVES OF THE ZOO

It is intended to develop this zoo on modern lines in conformity with the National Zoo Policy, 1998 with the following objectives in mind:

- i) Make Alipore Zoo a conservation breeding centre of prominence in India with focus on species of the region with special emphasis on wetland fauna.
- ii) Make the zoo a centre for conservation and awareness for the visiting public, particularly the young ones, taking advantage of the large visitation of the metropolis and the surrounding region.
- iii) To initiate and conduct the research on wildlife in captivity and to disseminate the results thereof to other captive animal facilities for conservation of animals in this wild.

MORTALITY OF ANIMALS

Sl. No.	Animal Name (with individual identification mark, if any)	Scientific Name	Date of death	Sex	Reason of death as per the post-mortem report
Mammals					
1	Indian Lion	<i>Panthera leo persica</i>	10.04.2019	M	Pneumonia with chronic hepatitis
2	Barking Deer	<i>Muntiacus muntjac</i>	19.04.2019	M	Cardio-respiratory failure
3	Common Marmoset	<i>Callithrix jacchus</i>	24.04.2019	M	Putrified unfit for Post Mortem
4	Four-horned Antelope	<i>Tetracerus quadricornis</i>	24.04.2019	F	Hydropericardium
5	Four-horned Antelope	<i>Tetracerus quadricornis</i>	25.04.2019	M	Infighting injury
6	Nilgai	<i>Boselaphus tragocamelus</i>	25.04.2019	M	Theileriosis
7	Four-horned Antelope	<i>Tetracerus quadricornis</i>	24.04.2019	F	Pneumonia
8	Zebra	<i>Equus burchlli</i>	06.05.2019	M	Bruising wound in right flank
9	Mouse Deer	<i>Moschida meminna</i>	08.05.2019	M	Septicaemia
10	Fishing Cat	<i>Felis viverrinus</i>	13.05.2019	M	Hydrothorax and Ascites
11	Spotted Deer	<i>Axis axis</i>	22.05.2019	M	Infighting injury
12	Spotted Deer	<i>Axis axis</i>	30.05.2019	M	Infighting injury
13	Bengal Tiger	<i>Panthera tigris tigris</i>	15.07.2019	M	Acute myonecrosis
14	Bonnet Monkey	<i>Macaca radiat</i>	02.08.2019	M	Chronic respiratory disease
15	Mouse Deer	<i>Moschiola meminna</i>	12.08.2019	F	Renal failure
16	Swamp Deer	<i>Cervus duvauceli</i>	16.08.2019	F	Senility
17	Swamp Deer	<i>Cervus duvauceli</i>	16.08.2019	M	Chronic wasting disease
18	Spotted Deer	<i>Axis axis</i>	22.08.2019	M	Infighting injury
19	Rhesus Macaque	<i>Macaca mulata</i>	29.08.2019	F	Shock due to dystocia
20	Mouse Deer	<i>Moschiola meminna</i>	02.10.2019	M	Renal Failure
21	Bow Antlered Deer	<i>Cervus eldi eldi</i>	16.10.2019	M	Splenomegaly
22	Fishing Cat	<i>Felis viverrinus</i>	09.11.2019	M	Nephritis
23	Nilgai	<i>Boselaphus tragocamelus</i>	19.11.2019	F	Theileriosis
24	Mouse Deer	<i>Moschila meminna</i>	02.01.2020	F	Pneumonia
25	Eastern Grey Kangaroo	<i>Macropus giganteus</i>	04.01.2020	F	Pneumonitis
26	Spotted Deer	<i>Axis axis</i>	07.01.2020	F	Enteric infection
27	Spotted Deer	<i>Axis axis</i>	08.01.2020	F	Enteric infection
28	Spotted Deer	<i>Axis axis</i>	11.02.2020	F	Placentitis
29	Brow Antlered Deer	<i>Cervus eldi eldi</i>	21.02.2020	M	Infighting injury
30	Fishing Cat	<i>Felis viverrinus</i>	29.02.2020	M	Cardiac Failure
31	Blackbuck	<i>Antilope cervicapra</i>	15.03.2020	F	Cardio-respiratory failure

আলিপুর চিড়িয়াখানায় জন্মাল তিনটি সিংহশিশু

২৭ বছর পর

শিশু সিংহের জন্ম আলিপুর চিড়িয়াখানায় গত ২৭ বছর পর। এটি হলো এই উদ্যানের ইতিহাসে প্রথমবারের মতো তিনটি সিংহশিশুর জন্ম।

নিজস্ব সংবাদদাতা কলকাতা ১৭ অক্টোবর, ২০১৯, ১০:০১:৪০ পের আপডেট: ১৮ অক্টোবর, ২০১৯, ০১:২৪:১৮

আলিপুর চিড়িয়াখানায় শিম্পাঞ্জি 'বাবু'। ক্যামি চিত্র।

গীর্ষ দুমক ধরে আলিপুর চিড়িয়াখানার সে দুর্গকরের মনোরমন করবে। দুর্গকরের অনেকটাই তাকে নামে যেন। শুধু দুর্গকরাই নয়, চিড়িয়াখানা কর্তৃপক্ষ এবং কর্মীদের অনেকেরই খুব প্রিয় শিম্পাঞ্জি 'বাবু'। কিন্তু আচমকা সে যে এমন কাজ করে যারের ডাবতেই পারবেন না কেউ! গত বুধবার সে আক্রমণ করবে চিড়িয়াখানার অধিকর্তা অধিদপ্তরার সমরকে। ঘটনার গুরুতর অর্থন হলেও আলিপুর চিড়িয়াখানায় অস্বাভাবিক ভিডিওর সাক্ষ্য।

এদিনের বাবুর সঙ্গে তার সম্পর্ক বেশ ভাল। মাকেমন অধিকর্তা নিজেই বাবুর 'এনলাইজার' চলে যেতেন। তার পরিচয় ঠিক মতো হলে কি না, খায়া কেমন আছে, এ সব তিনি নিজেই খতিয়ে দেখেন। বুধবারও আলিপুর চিড়িয়াখানায় বাবুর দেখা দেবে। আর তখনই বাবু তাকে আক্রমণ করে। আলিপুর চিড়িয়াখানায় সূত্রে খবর, এই দিন মুরে ২টাে মাগান আলিপুরকুমার পরিচর্য এবং স্বয়ংর বিশ্বকর্ষি পতির দেখতে বাবুর কান্দে গিয়েছিলেন। অচমকই তাকে ধাক্কা খেয়ে বাবু। হঠাৎ একটি অসুচের নথ উপড়ে দেয়। এই জেরে অসুচের উপরের অংশ ছড়িয়ে পড়ে। একটি সুরের দাঁড়ি, তার মতে কলকাতা পথিয়ে বাবু। তবে বিশ্বকর্ষি আলিপুরকুমার বিশেষ গুরুত্ব দিতে চাইতেন না। বাবু কেন এমন আচরণ করল, সেটাও এখন খতিয়ে দেখতে চান তিনি। আলিপুরকুমার কেন করা হবে, তার বেনামাই বধ পাওমা নিয়ে।

আলিপুর চিড়িয়াখানার সহ-অধিকর্তা শিবদী চৌধুরীসহ আলিপুরকুমার ঘটনার পর অধিকর্তাকে প্রথমে বাবুর হাঙ্গামাগুলো নিয়ে যাওয়া হয়। পরে দেখান থেকে এসময়কালে হাঙ্গামাগুলো দূরীকৃত করা হয়। তার অসুচের গুরুতর চোট পড়ে।

West Bengal: Endangered deer born on day of cyclone, Alipore zoo names it Bulbul

KOLKATA: Amid the gloom in the wake of cyclone Bulbul, the city has a reason to cheer. The Alipore Zoological Gardens welcomed a new guest — an endangered sangai or Manipuri dancing deer — on Saturday, the day the cyclone made landfall in Bengal. The zoo authorities have named the fawn, which was born around 7am on Saturday, Bulbul.

Talking to TOI, zoo director Ashish Kumar Samanta said the fawn has been kept under constant watch. "As we were busy taking precautionary measures at the zoo on Saturday morning to thwart any possible impact the cyclone, a keeper informed us that a fawn was born to a brown-antlered deer, which is considered an endangered species on the International Union for Conservation of Nature (IUCN) Red List. Since it was born on the day the cyclone made landfall here, we named the calf Bulbul," Samanta said.

Kolkata Zoo: Now, zebras to get an enclosure to breed in

KOLKATA: The zebras in Alipore Zoo have finally earned their stripes to have a breeding centre of their own. The State Zoo Authority has decided to set up a zebra breeding centre at the zoo for captive breeding and also expand the enclosure to accommodate the nine zebras they already have. Such a facility does not exist in any of the zoos in the country.

EARNING THEIR STRIPES

- Four zebras arrived at Alipore Zoo from Israel in 2011.
- Currently, there are nine zebras at the zoo.
- The captive breeding of zebras has been successful till now with at least one foal taking birth every year since 2012.
- Enclosure plans will help separate two zebras from the others for mating.
- Will also be used to house female zebras after they conceive.
- Once a foal is born, it will be kept in the enclosure till it is old enough to be with others.

The existing enclosure at Alipore Zoo is proving to be inadequate for nine zebras.

গরম ঠেকাতে শিম্পাঞ্জির লসিয়ান, হরিণ-হাতি-বাঘেদের অন্য ব্যবস্থা

গরমে নাজেহাল ওরাও। ওরা বলতে শিম্পাঞ্জি, হরিণ, বাঘ, সিংহ, ক্যাভার্ক, লেপার্ড, শিয়াল। রাজ্যের বিভিন্ন প্রান্তের চিড়িয়াখানা, অভয়ারণ্যে ছড়িয়ে-ছিটিয়ে রয়েছে তারা। অত্যধিক
